

**HEART  
HEROES**

Mildura Base Public Hospital has announced its 2023 HEART Hero awards.

The individual and team-based awards are recognition for the wonderful contribution individuals have made to our organisation through our values driven culture. Each individual award nominee and eventual winner was chosen by members of staff with over 200 nominees received.

Congratulations to all the winners and nominees and while we recognise the contribution of these great members of our staff, it is our whole team which makes MBPH the values driven organisation it has become.
